EXHIBIT 1 ACCEPTABLE USE POLICY

The Digital Ranch, Inc. ("The Digital Ranch") has published this acceptable use policy ("AUP") in an effort to enhance the use of the Internet by promoting responsible use and in an effort to provide a reliable, high-quality service to its customers. In that regard, The Digital Ranch requires its customers and other third-party users (collectively, its "Users") to utilize The Digital Ranch's services and network responsibly and in compliance with all applicable laws and the terms of this AUP. This AUP supplements rather than supersedes any and all agreements between a User and The Digital Ranch with respect to the use of The Digital Ranch's services and network by such User. Use by a User of The Digital Ranch's services or network constitutes acceptance by such User of the terms of this AUP.

Prohibited Conduct

Users may not use The Digital Ranch's services or network (i) in violation of any applicable local, state, or federal law or regulation; (ii) in a manner that infringes or may infringe upon any copyrights, trademarks, patents, trade secrets, or other types of intellectual property; (iii) to transmit offensive or threatening materials, including materials that are obscene, pornographic, defamatory, libelous, abusive, hateful, excessively violent, or otherwise inappropriate; (iv) to transmit fraudulent, deceptive, or misleading materials or to advance any type of financial scam; (v) to transmit any materials that harass another person or entity; or (vi) to transmit viruses, Trojan horses, or other materials harmful to any network or equipment or other Users or third parties; or (vii) in a manner that exposes or may expose The Digital Ranch, its customers, partners, or vendors, or any other person or entity using The Digital Ranch network to abuse, complaints, retaliation, connectivity issues, or other negative impact..

System and Network Security

Users may not use The Digital Ranch's services or network to violate or to attempt to violate the security of any network, service, data, or other system without proper authorization, including, without limitation, (i) any attempt to access any network, service, data, or other system that such User is not authorized to access; (ii) any attempt to probe, scan, or test the vulnerability of any network, service, or system without proper authorization; (iii) any attempt to breach any security or authentication measures; (iv) any attempt to monitor data or traffic on any network or system without proper authorization; (v) any attempt to interfere with service to any User, host, or network, including, without limitation, by means of overloading, mailbombing, flooding, crushing, or any denial of service attacks; (vi) any attempt to forge any TCP/IP packet header or any part of the header information in an e-mail message or a newsgroup posting; or (vii) any attempt to utilize another User's account name without proper authorization.

Spamming

Users may not use The Digital Ranch's services or network to transmit any unsolicited commercial or unsolicited bulk e-mail messages (commonly known as "spam"). For purposes of this AUP, an e-mail message shall be deemed to be unsolicited if (i) it is sent to a recipient (a) who has not expressly requested or invited it, (b) with whom the sender does not have an existing personal or business relationship, or (c) who has requested that the sender not send it any further e-mail messages or (ii) such e-mail message is considered to be unsolicited under any applicable local, state, or federal law or regulation. In addition, Users are prohibited from using the services or network of another provider to send spam or to promote a site hosted on or connected with The Digital Ranch's services or network.

Usenet

All postings to Usenet groups must comply with such group's charter, rules, guidelines, and agreements (collectively, "Usenet Policies"). In addition to any such Usenet Policies, Users may not use The Digital Ranch's services or network to post the same or similar messages to one or more Usenet groups (commonly known as "Usenet spam").

Consequences

If The Digital Ranch determines that a User has violated any of the terms of this AUP, The Digital Ranch shall have the right in its sole discretion (i) to demand immediate removal of the violating material and/or (ii) to terminate or to suspend such User's services. The Digital Ranch may involve and shall cooperate with law enforcement authorities if criminal activity is suspected. In addition, Users who violate this AUP may be subject to civil or criminal liability. The Digital Ranch shall not be liable for any damages suffered by any User or third party resulting directly or indirectly from any actions taken by The Digital Ranch pursuant to this AUP. In order to protect the The Digital Ranch network and all Users utilizing the The Digital Ranch network, The Digital Ranch shall have the right, immediately and without prior notice, to terminate routing of a User's assigned IP address space in the event such User is under a network-based attack; however, The Digital Ranch shall use reasonable efforts to reinstitute routing of such User's assigned IP address space in The Digital Ranch's discretion following such network-based attack. In the event that a User experiences repeated network-based attacks, The Digital Ranch reserves the right to suspend or terminate such User's services immediately and without prior notice.

Violation Reporting

Violations or potential violations of this AUP may be reported to The Digital Ranch, Inc. at abuse@digital-ranch.com.

Modifications

The Digital Ranch reserves the right to modify this AUP from time to time without notice in The Digital Ranch's sole discretion. Such modifications shall be effective when posted. Updates to this AUP will be posted on The Digital Ranch's website at the following URL: http://www.digital-ranch.com/tdr_aup.pdf.
